

Product Range | Microparticulate Shrimp Hatchery Feed

Feed	Particle Size
Early Post – Larva Feed (PL 1-5)	100 – 250 µm
Late Post – Larva Feed (PL 6-12)	200 – 350 µm

SyAqua microparticulate feed contains high quality sources of nutrients in a form suited to the changing feeding habits and developing digestive system of post-larvae.

BENEFITS:

- Ensure water stability through controlled buoyancy maintaining feed in the water column.
- High Survival - High nutrient availability for stronger PL.
- Simple to use - Just add straight to the rearing tanks and avoid complex rehydration procedures.

NUTRITIONAL PROFILE:

Crude Protein	: min 50%
Crude Fat	: min 10%
HUFA	: min 2%
Crude Ash	: max 18%
Moisture	: max 10%

INGREDIENTS:

Marine protein, plant protein, marine lipids, plant lipids, vitamins, minerals, carotenoids.

STORAGE:

- Store at room temperature.
- Keep in refrigerator once opened and use within one month of opening.
