

# Product Range | Spiru-Pro Pure Spirulina

SyAqua Spiru-Pro Pure Spirulina is a blue-green micro-algae rich in essential amino-acids. A suitable feed for protozoal through post-larval stages of all penaeid shrimp and marine fish species, it can be used as a partial supplementation or complete replacement for protein in larval feeds.

## **BENEFITS:**

- High Protein: Rich in protein with 100% spirulina.
- Natural Vitamin Source: Delivers fast growth, enhanced pigmentation and stronger immunity in post larval stage.
- Convenient Usage: Suitable for first life stage of shrimp as particle size is below 50µm.
- Easy and Efficient: Ready-to-use dry algae for time-saving application.

## **NUTRITIONAL PROFILE:**

Crude Protein	: ≥60%
Ash	: ≤10%
Moisture	: ≤9%
Crude Fat	: <5%
Crude Fiber	: <10%

## **INGREDIENTS:**

100% Spray-Dried Spirulina Algae Powder

## STORAGE:

- Keep dry.
- Store out of direct sunlight in a well-ventilated place.
- Refrigeration is preferred.
- After opening, avoid the humidity.

## PACKAGING:

Spiru-Pro Pure Spirulina is packed in 425 gram cans.

## RECOMMENDED FEEDING GUIDE

1. For every 3 million shrimp in 50 MT water, add 2g Spirulina per feeding.
2. Feed 4 - 6 times per day.
3. Wash Spirulina through fine 150 - 200 mesh screen and mix well with clean water prior to feeding.
4. Spread all over the tank.
