## SPIRU-PRO

**Spiru-Pro Pure Spirulina** boasts remarkable abundance of essential amino acids needed for marine life. Its versatility shines through as it can serve as either a partial or total substitute for protein in the diets tailored for larval stages. This exceptional microalgae is specifically formulated to cater to the nutritional needs of vannamei shrimp ensuring its suitability across the entire developmental spectrum, from protozoal to postlarval stages. Embracing Spiru- Pro, Pure Spirulina in these crucial stages of growth guarantees a comprehensive and high-quality dietary source, fostering optimal development and well-being in aquatic species.

### BENEFITS

#### RICH IN PROTEIN WITH

100% spirulina

#### NATURAL SOURCE OF VITAMINS

Promotes rapid growth, intensifies pigmentation, and boosts immunity during the postlarval stage.

#### EASY APPLICATION

Designed for early-stage shrimps, with particle sizes consistently below 50µm for convenient usage.

#### CONVENIENT AND EFFECTIVE

Save time with this ready-to-use dry algae for efficient application

Pure Spirulina

Sustainable Shrimp Technologies  
**GENETICS • NUTRITION • HEALTH**

## PRODUCT RANGE

**SPIRU-PRO SPIRULINA POWDER**  
 100% less than 180 µm

### INGREDIENTS

- Pure spirulina (Arthrospira platensis).

### STORAGE

- Keep dry and store in cool, dark conditions.
- Keep in refrigerator once opened and use within one month of opening.
- After opening, avoid humidity.
- Shelf Life: Three years when stored properly.

### PACKAGING

GC-Mat is packed in 425 grams cans (12 cans per carton).
